BIOFILTER

Technology for a Sustainable Future

ERG

Air Pollution Control

Site:

Heathfield

Application:

- Biofilter to treat VOCs and odours from composting bays and roof space
- Gas flow rate $15,000\text{m}^3/\text{h}$
- Odour $20,000\text{ ou}_E/\text{h}$ inlet
- H_2S , NH_3 , terpenes, mercaptans, other VOCs including sulphur based

Equipment:

- 2 x Biofilter
- 108m^3 woodchip media
- Ductwork
- Water and nutrient tanks
- Control panel

Year delivered:

2010
