

Keppel Seghers

V-TEX

Technology for a Sustainable Future

ERG Air Pollution Control

Client:

Keppel Seghers

Application:

- >98% efficiency NH₃ scrubbing of <600ppm
- >98% efficiency H₂S scrubbing of <7,000ppm
- Inlet gas flow 4,100m³/hr

Equipment:

- 2x PP/GRP V-tex® scrubbers
- Duty/standby recirc. pumps
- H₂SO₄ dilution, storage and dosing system
- NaOH storage and dosing system
- Evaporator with super duplex chamber
- Biogas-fired water boiler
- Cooling tower & pump
- Instrumentation
- MCC and control system

Year delivered:

2019
